

# Welcoming The Giant: Rokan Block

*"As of August 9, 2021, the natural resources in Bumi Lancang Kuning, or Riau Province, is managed by Pertamina. This transfer of management presented a challenge, in which we are challenged to prove our capabilities to maintain the Rokan Block's performance. Pertamina must work diligently to sustain Rokan Block's operations as one of the backbones of national oil production and brings more benefits to the region. I am confident that Pertamina will perform well."*

**Joko Widodo**

President of The Republic of Indonesia

RIAU PROVINCE

- Minas
- Duri
- Bangko
- Bekasap
- Balam South
- Kotabatak
- Petani
- Pematang
- Petapahan
